

Let's Hit the Road!

LEARN EQUINE BODYWORK - AT YOUR OWN BARN!

Improved Horse Health

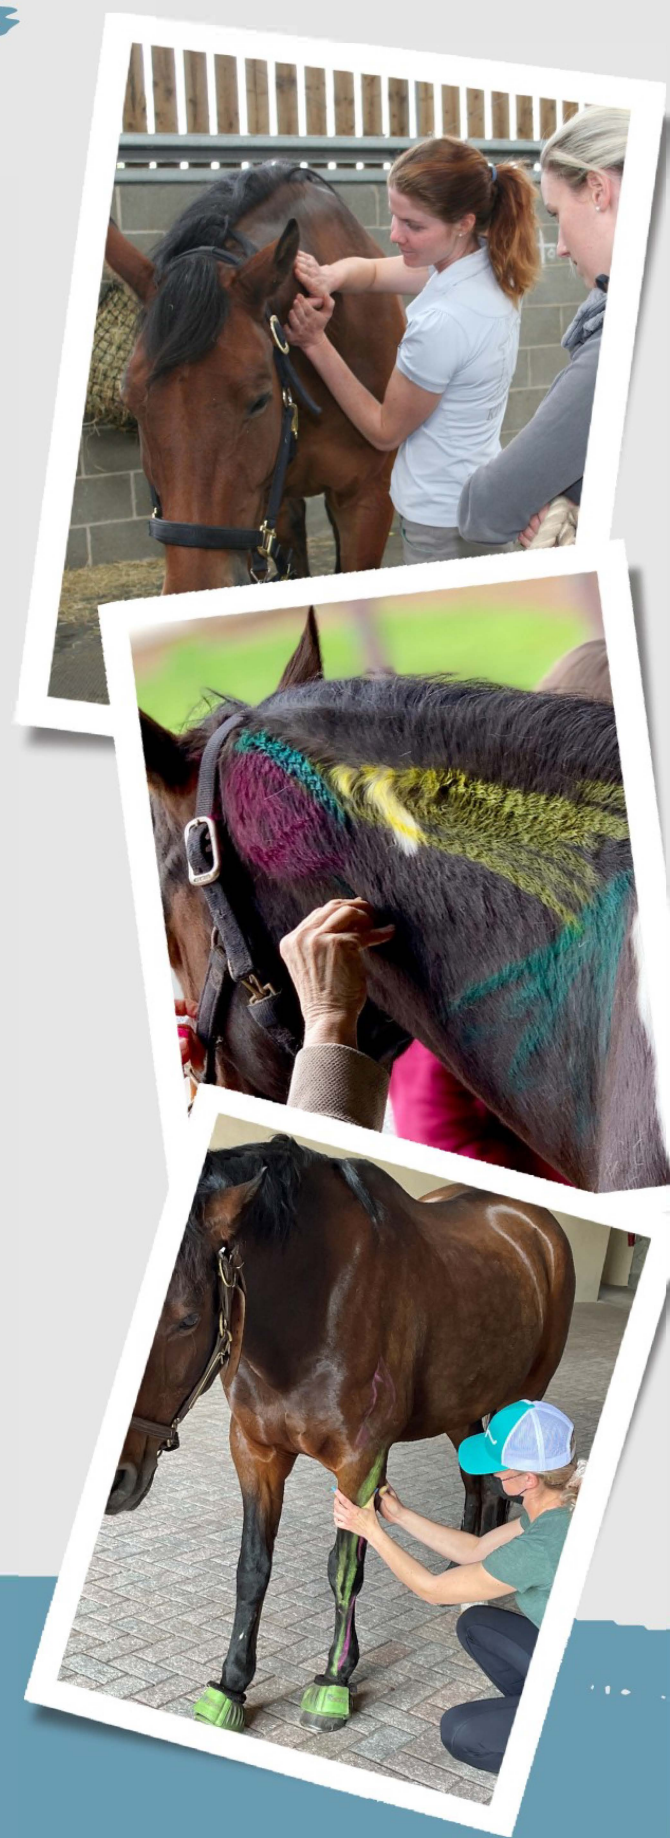

In this 3-day course from the EquiLearn Institute, you will learn a unique blend of anatomy-based sports massage, soft tissue release and stretching techniques for improved performance, comfort and communication with your horse.

Personalized Learning

Bringing this course to your barn means you get to learn alongside your friends and teammates. Class size is limited to 14 students, ensuring ample one-on-one time with the instructor.

Hands-On Experience

Between the classroom lectures and the extensive hands-on labs, this class will teach you how to identify and address problems that may otherwise go unnoticed. You will also learn what to look for to objectively evaluate conformation, gaits and symmetry.
